## Introduction

This preparation guide has been produced to help you to identify the most common tasks that need to be carried out before running the School Census Summer 2021 Return.

The information in this guide applies to all LA maintained Nursery, Primary, Middle deemed Primary, All-Through (nursery and primary phase), Pupil Referral Units (primary phase) and Special schools. It also applies to Academies that cover any of these school phases.

Where the information relates to a specific school phase, it is indicated in red, e.g. Applicable to Special schools only.

NOTE: The content of the graphics (dates, names, etc.) displayed in this preparation guide are examples only of what you might expect to see when using SIMS to prepare for the forthcoming School Census Return.

## How has the School Census Summer Return Changed since Last Year?

Changes to the return include the following:

- Census date 20/05/2021
- Attendance collected from 01/01/2021 to 04/04/2021
- Exclusions collected from 01/08/2020 to 04/04/2021
- Free School Meal Eligibility collected from 22/01/2021 to 20/05/2021
- Learner Support collected from 01/08/2020 to 20/05/2021 (not applicable to Nursery or Primary schools).

## Reporting School Dinners Taken on Census Day <br> Routines | Statutory Returns | School Census - School Dinner Taken

If pupils in years R, 1 and 2 are not attending school on the School Census Summer 2021 census day, schools can now select an alternative date for reporting of school dinners taken between 05/04/2021 and 31/07/2021. In Special schools, this is also applicable to pupils aged between 4 and 6 who are not following the National Curriculum Year X, and pupils born between 1 September 2013 and 31 August 2016 inclusive.

## De-Activation of the 'Other' Exclusion Reason

## Tools | Lookups | Maintain

The Other lookup value in the Exclusion Reason lookup type has been set to inactive because from September 2020 onwards, it should not be recorded.
$\frac{1}{2}$
More Information:
Preparing Exclusions Information on page 49

## Collection of School Attendance Information

Not applicable to Nursery schools

- For schools that use Attendance, data is collected on all categories of school attendance, rather than just absence.
- For schools that do not use Attendance, it is possible to record the following information:
- Total number of sessions attending approved educational activity This information was also collected in the School Census Spring 2021 Return
- Total number of sessions unable to attend due to exceptional circumstances This information was also collected in the School Census Spring 2021 Return
- Total number of sessions unable to attend due to Coronavirus. This information was also collected in the School Census Spring 2021 Return
More Information:
Preparing Termly Attendance Information on page 51

## Setting SIMS Permissions

The following permissions are applicable to users who deal with returns.

## Running the Return

To run the return, you must be a member of one of the following user groups in System Manager:

- Returns Manager
- Returns Operator.

## Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. pupil details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see Where to find More Information about Permissions on page 3).

## Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS) to be imported into SIMS between SIMS releases.
To use the Import Fileset functionality (via Tools | Setups | Import Fileset), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

For more information about the Import Fileset functionality, please refer to the applicable preparation guide. To access the SIMS Documentation
Centre. Click the Documentation button located on the top right-hand side of the SIMS Home Page.

## Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the Managing SIMS Users, Groups and Databases handbook.
An Excel spreadsheet describing the numerous permissions available in SIMS is available on the support portal (https://support.capitasoftware.com/csm?id=kb article view\&sysparm article $=$ KB0044069).

## What Version of SIMS is Required?

To run the return, you must have the SIMS 2021 Spring Release (7.198) or later installed.

To check which version of SIMS is installed, open SIMS and then select Help I About SIMS. A dialog similar to the one shown in the following graphic is displayed.
The version should read 7.198 or later.

## Importing Revised Filesets for Validation and Reports

## Applicable to the Personnel Officer, Returns Manager and System Manager

The Validation Errors Summary and the Summary report are derived from files supplied by the Statutory Body. In addition, SIMS provides detail reports to enable the checking of data used to generate the return. These report files are initially installed automatically during the SIMS release upgrade.
Occasionally, additions or corrections are made to these files, after a SIMS release, which are required for the forthcoming return. The Import Fileset functionality is provided to enable these files to be imported into SIMS (between releases) by the Personnel Officer, Returns Manager or System Manager.

```
NOTE: Use of the Import Fileset routine between releases is not always
required. If updated files are available for import, a notification is displayed
on the support portal
(https://support.capitasoftware.com/csm?id=kb article view&sysparm article
=KB0035899).
```

Revised files can be:

- downloaded from the support portal
(https://support.capitasoftware.com/csm?id=kb article view\&sysparm
article=KB0035899) to a folder of your choice.
The files available for download from the portal are zipped. Once the zip file is downloaded it should be unzipped to a folder of your choice. The Import Fileset routine can then be run by a user at the school who has the appropriate permissions.

IMPORTANT NOTE: Ensure that the Document Management Server (DMS) is configured correctly before attempting to import the files.

- authorised and deployed to schools via SOLUS3. The Import Fileset routine can then be run by a user at the school who has the appropriate permissions.

IMPORTANT NOTE: In SOLUS3, administrators must ensure that the SIMS user details (SIMS username and password) and SIMS database are set up in Targets.

For more information, please refer to the SOLUS3 for Local Authorities handbook.

TIP: To check which version of the fileset is currently in use, select
Routines | Statutory Returns \| School Census to display the Census Return browser. The Validation Fileset ID is displayed in the browser header.

## Before Importing the Revised Files

To enable the file(s) to be imported successfully, ensure that the DMS is configured correctly. This is achieved via Tools | Setups | Document Management Server. Click the Test server connection button to check if the specified DMS is available for use and functioning correctly.
If the connection is unsuccessful, check the following details:

- The Protocol field defaults to http and should not be edited.
- The Computer name should be the name/number of the PC on which the DMS is installed.
- The Port number is usually 8080. The number must be between 0 and 65535.
- The Active check box must be selected, indicating that the server is in use.
Click the Test server connection button again. If the DMS is now working correctly, click the Save button.

## Importing the Revised Files

1. In SIMS, select Tools | Setups | Import Fileset to display the Import Fileset page, where the current fileset number is displayed.

2. Click the Browse button to display the Open dialog.
3. Navigate to the location of the downloaded fileset. The file name is made up of the following data fields: <Fileset
Number>-StatutoryReturns-<Term and Year>_Fileset.mfs.
IMPORTANT NOTE: If more than one MFS file is displayed in the Open dialog, care should be taken to select the correct file.
4. Highlight the file then click the Open button. Alternatively, double-click the required MFS file to return to the Import Fileset page.

NOTE: The following graphics show example data only.

Details of the selected fileset are displayed, including the version Number of the fileset, the Release Date and the fileset description (Title).
5. Click the Import Fileset button to import the fileset into the DMS.

When the import process is finished, Import successful is displayed at the bottom left-hand side of the Fileset panel and you are advised to restart SIMS. This ensures that the newly imported data will take effect.
6. Click the OK button, then restart SIMS.
7. Run the return in the usual way.

## School Census Return Process Flow

The following provides a brief outline of the steps involved in producing the School Census Summer 2021 Return. If data has been regularly and accurately maintained, many of the activities in this document are unnecessary. However, it is advisable to check to ensure that the information is up-to-date.

1. Upgrade to the SIMS 2021 Spring Release (7.198) or later.
2. Carry out one or more dry runs to identify any errors that may exist in your data.
3. Ensure that the relevant pupil and school data exists in SIMS and that it is complete and correct. Use the Bulk Update routine (Routines | Pupil | Bulk Update) to add missing or correct invalid data, if required.
4. Complete the information on the Census Return Details page.
5. Create and validate the return.
6. Resolve any validation errors/queries and then create and validate the return again.
Continue to resolve the validation failures then repeat the Create and Validate routine until you are satisfied that the content of the return is correct.
The detail reports and Summary report can be generated to assess the accuracy and completeness of the return.
7. Provide the Head Teacher with the latest copy of the Summary report to enable them to check that all information is correct before they give approval for authorisation of the return.

The Summary report can be used in conjunction with the detail reports.
8. Once approval has been given, authorise the return (Routines | Statutory Returns | School Census - Authorise button).
9. Upload the return to the DfE COLLECT data collection website or submit it to your Local Authority, as applicable.

Why Carry out a Dry Run? ..... 9
The Dry Run Process ..... 9

## Why Carry out a Dry Run?

When you have upgraded to the SIMS 2021 Spring Release (7.198), you can carry out one or more dry runs of the return.
The purpose of a dry run is to produce the Validation Errors Summary, which provides details about any corrections that need to be made to your data to make it acceptable for inclusion in the return. To ensure that you are aware of potential issues, it is advisable to do this as early as possible, even if you know that your data has not yet been fully prepared or checked.
Whilst a significant number of errors may be generated, many of the errors that relate to pupils, e.g. language, can be fixed quickly using the Bulk Update routine (please see Updating Information Using the Bulk Update Routine on page 24).

## The Dry Run Process

1. Select Routines | Statutory Returns | School Census to display the Census Return for Summer 2021 Term browser.

2. Select an existing School Census Folder or enter a new location in which the School Census files will be stored. You may wish to make this a temporary folder for the purpose of producing a dry run.

IMPORTANT NOTES: Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.
You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (https://www.gov.uk/service-manual/technology/securing-your-information). If you are in any doubt, you should consult with your IT Security Officer before proceeding.
The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.
Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website
(https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr).
3. Click the New button to display the Census Return Details page.
4. By default, the return Description is displayed as School Census Summer 2021. Edit the Description to any name that will clearly distinguish this dry run from the actual return, which will be generated later, e.g. Summer21Test.
5. In the Census Details panel, click the Calculate All Details button to extract the required information from the SIMS database and display the results in the various panels of the Census Return Details page.
6. If there is any missing or invalid data, an error message is displayed on the Status Bar. This data must be added/corrected before you can create and validate the return.
7. Click the Create \& Validate button to start the validation process. This may take some time. Any missing or invalid data is listed in the Validation Errors Summary panel, located at the bottom of the page.

## Additional Resources:

Detailed information about completing the individual panels on the Census Return Details page is available in the Producing the School Census Summer 2021 Return handbook applicable to your school phase.

## Resolving Validation Errors and Checking Queries

After creating the return file and validating the data, any errors and queries found are listed in the Validation Errors Summary panel.

The Validation Errors Summary panel header displays the number of errors and queries found when the Create and Validate routine was run. A student and error search facility is also available.
The following information is provided to help with the resolution of validation failures:

- Type - the type of validation rule.
- Failure ( $\mathbf{F}$ displayed in red) indicates an error that must be resolved.
- Query ( $\mathbf{Q}$ displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.
- Sequence - the validation error or query number.
- Message - the validation error or query message text.
- Location - the specific record in SIMS that contains the error or query.
- Solution - the SIMS menu route and/or instructions about where/how the error can be corrected or the query checked.

TIP: Using the Solution hyperlinks
When the pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the problem can be checked.
A hyperlink is also indicated by a hash symbol (\#) preceding the Solution text.

Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.

To assist in the viewing of errors and queries:

- When the mouse pointer is hovered over a Message, Location or Solution, hover help displays the entire content of that cell.
- The Student Search functionality can be used to display all errors and queries relating to a particular pupil.
a. Enter all or part of a UPN, pupil's surname or date of birth in the Student Search field.
b. Select the required record from the Student Search drop-down list to populate the Student Search field.
c. Click the Find button to display the applicable validation records.
- Use the Errors Search to display the required error or query you want to view. Select ALL, ERRORS, QUERIES or the required number from the drop-down list. The total number of rows that relate to the selected validation is displayed adjacent to the Error Search field.
- By default, when ALL is selected from the Errors Search drop-down list, the errors are displayed at the top of the list.
The order of the items in the list can be changed by clicking the appropriate column heading.
The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.
- View a summary of validation failures by clicking the Report button (located above the Validation Errors Summary panel, on the left-hand side). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required.
The report is saved automatically in the Census Folder (specified previously via the census browser). The original report, which was generated when the Create \& Validate button was clicked is also stored in this folder.
- Your generated report file name: Validation Errors Summary. HTML
- Original report file name: <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year> _<SerialNumber>_ValidationErrorsSummary.HTML
For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.
Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved, and all queries must be investigated.
If at any point you want to hide the list of error and queries, click the Close button located at the top right-hand side of the Validation Errors
Summary panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via Routines | Pupil | Bulk Update). For more information, please refer to the Managing Pupil/Students handbook.

## Permanent Exclusions without Final Reviews Report

## Not applicable to Nursery schools

Report Criteria: On-roll pupils and leavers with permanent exclusions and without a final review from 01/09/2019 to 04/04/2021.
This new report details permanent exclusions that will not be included in the census, either because the exclusion process is still ongoing or because the school has not recorded the final review result. The report has been provided to assist schools in checking whether details have been recorded accurately. The start date for checking the permanent exclusions is deliberately 01/09/2019 so that all instances can be checked.
The following information is included in the report: UPN, legal surname, legal forename, date of birth (DOB), gender, date of admission (DOA), date of leaving (DOL), reason for exclusion, exclusion start date, SEN expert requested (Yes/No) and on-roll status.

## Generating Detail Reports

Reports can be generated individually or by selecting the Multiple Reports option.

## Selecting a Single Detail Report

Select the required report from the Detail Report drop-down list, located at the top of the Census Return Details page. The selected report is generated automatically and displayed in your web browser.
The following example displays the reports available for Primary schools.

## Selecting Multiple Detail Reports

1. Select Multiple Reports from the bottom of the Detail Report drop-down list to display the Detail Reports dialog. By default, all detail reports are selected.
2. If any reports are not required, deselect the associated check boxes.
3. Click the Report button to generate the selected reports, which are displayed in your web browser.
The reports are saved automatically in the folder specified in the Census Return for Summer Term browser.

TIP: If required, the report can be transferred to a spreadsheet application, which enables the data to be sorted and the column order to be changed, etc. Right-click the report then select the required option, e.g. Export to Microsoft Excel, from the drop-down list.

Checking Establishment Details ..... 19
Checking School Telephone and Email Information ..... 20

## Checking Establishment Details

The following establishment details are required for the return and therefore need to be checked to ensure that they are recorded correctly in SIMS:

- Unique Reference Number (URN)
- School Type
- School Governance
- Intake Type.

The following read-only items are also collected. Please contact your Local Support Unit if the information displayed in SIMS is incorrect.

- School Name
- LA number
- Establishment Number
- School Phase
- Curriculum Years (highest and lowest national curriculum year group).

1. Select Focus | School | School Details to display the School Details page.
2. Check that the details displayed in the Establishment panel are correct.
3. Ensure that the School Type, School Governance and Intake Type are displayed correctly. Select the correct value from the drop-down lists, if required.

NOTE: The School Name, LA number, Establishment Number and School Phase were set up when SIMS was installed. If these details are incorrect, please contact your Local Support Unit for assistance.
4. Ensure that the establishment's six digit Unique Reference Number (URN) is entered. The number is available via the Get information about schools website (https://get-information-schools.service.gov.uk/), which is a register of schools and colleges in England.
5. If you have edited any information in the Establishment panel, click the Save button.

## Information for Academies

Academies should also ensure that the following information is recorded, if applicable:

- The School Type and School Governance.

Select Academies from the applicable drop-down lists.

- The Previous Name and Date Name Changed.
- The Previous Estab Number and Earliest DOA (date of admission).

This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected, and the earliest date of admission is reported in the School Census.

- The Previous URN Number (used by other census returns) and Date Number Changed.
This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

## Checking School Telephone and Email Information

The following school contact details are collected for the return and therefore need to be checked to ensure that they are up-to-date and correctly recorded in SIMS:

- School Email Address
- School Telephone Number.

1. Select Focus | School | School Details to display the School Details page.
2. Click the Contact Details hyperlink to display the Contact Details panel.

| 3 Contact Details |  |  |  |
| :--- | :--- | :--- | :--- |
| Telephone | 852015 | Fax | 857898 |
| Email | school@we.com | Website | $\square$ |

3. Ensure that a Telephone number has been recorded (including the STD code).
4. Ensure that the school's official communications Email address has been recorded correctly (it must include the @ character together with a minimum of one full stop).
The email address must be the account used on a regular basis. It must also be accessible to the Head Teacher as it might be used for future DfE correspondence.
5. Click the Save button, if changes have been made.

## Checking Pupil Details

Before starting the School Census return, check that all on-roll pupils are recorded in SIMS and that as far as possible the information is up-to-date and accurate. Ensure that:

- new pupil records have been added (for more information, please refer to the Recording a New Pupil/Student section in the Managing Pupil/Student handbook).
- any leavers have been recorded as such (please see Recording Leavers and Re-Admissions on page 27).
NOTE: Ensure that a pupil's first language and boarder status are entered before they are recorded as a leaver.
- any duplicate pupil records have been deleted (please see Deleting Pupil Records Entered in Error on page 30).
- part-time details have been checked/updated (please see Checking Part-Time Pupil Information on page 34).
- pupil details have been updated where required.

The following sections in this guide provide additional information and specific instructions on checking and editing pupil level data. Some of this data can be checked/updated using the Bulk Update routine (please see Updating Information Using the Bulk Update Routine on page 24).
When you have upgraded to the SIMS 2021 Spring Release (7.198), you are strongly advised to carry out one or more dry runs to identify any validation errors and queries that must be resolved before the return is submitted (please see Why Carry out a Dry Run? on page 9).

## Updating Information Using the Bulk Update Routine

To prevent validation errors from occurring, it is advisable to check your SIMS data for accuracy before the return is created and validated.
Many items can be checked using the Bulk Update routine. This functionality enables you to search for missing or invalid data, then update in bulk. For example, it is possible to search for all pupils who do not have a First Language recorded against their name. From the pupils found, a value can be assigned to all or several pupils. This prevents the need to enter/change values manually for individual pupils.

1. Select Routines | Pupil | Bulk Update to display the Bulk update Pupil browser.

2. In the Bulk Update panel, select the required Group Type and Group from the drop-down lists.
The Group Type indicates the type of group to list while the Group enables the specific group of pupils to be listed. For example, selecting a Group Type of Year Group enables a specific year to be selected from the Group drop-down list, such as Year 8.
If searching for missing information, select the particular data field from the Group Type drop-down list, such as First Language, and then select a specific Group, such as <NONE>.
It is also possible to use this functionality to review the data entered for all the pupils in the school. This is achieved by selecting Year Group from the Group Type drop-down list and <ANY> from the Group drop-down list and then selecting the required Data Item.

The following table provides some examples of the searches that can be carried out to identify missing data.

| Group <br> Type | Group | Data Item | Comment |
| :--- | :--- | :--- | :--- |
| Year Group | Year 8 (and <br> above) | Boarder <br> Status | Searches for all pupils in Year Group 8 <br> and then displays the boarder status <br> recorded against each pupil's name. |
| First <br> Language | <NONE> | First <br> Language | Identifies pupils who do not have a First <br> Language recorded. Can also be used to <br> change existing values as required. |
| SEN Status | Education, <br> Health and <br> Care Plan | SEN <br> Provision <br> Type | Lists pupils with a SEN Status of E <br> enabling the SEN Provision to be <br> selected. |

3. Select the required Data Item from the drop-down list, e.g. First Language.
4. The Effective Date is the date on which the membership of the group is based and defaults to today's date. In most circumstances, it is advisable to change this date to the start of the academic year because most data recorded is applicable from the start of the academic year.

5. Click the Search button to display the Members panel, which displays a list of pupils matching the chosen criteria and the choice of First Language types.

> TIPS: Use the horizontal and vertical scroll bars to view additional columns or rows as required. To increase the number of columns visible on the page, right-click any column heading and then select Narrow Columns from the pop-up menu.

## Bulk Updating Data with the Same Data Item then Editing the Exceptions

Often, the most effective way of populating missing data is to fill all the rows with the same data item and then edit the exceptions (for example, depending on the ethnic range within your school).
The following example illustrates how to set the ethnicity of all pupils as English, then edit the exceptions.

1. Right-click the English data entry column header (hover over the heading to see the full title, if required), then select Check All from the pop-up menu.

| 1 Members |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Name | Year Group | Assigned | ini | Efik-lbibio | English | Fsanilshan | Fstonian | Ewe ${ }^{\wedge}$ |
|  |  |  |  |  |  | Narrow Columns |  |  |

| Ackton, Charlotte | 2 | English |  |  | $\checkmark$ |  |  |  |
| Ackton Stan | 6 | Enolish |  |  | $\checkmark$ |  |  |  |

All the cells within that column are then populated with ticks.
Edit the exceptions by clicking in the cell associated with the individual pupil and their status, e.g. the first language of Alisha Abhra is Estonian.

| 1 Members |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Ackton, Charlotte | 2 | English |  |  | $\checkmark$ |  |  |  |
| Ackton_Stan | 6 | Fnalish |  |  | $\checkmark$ |  |  |  |

2. Once you have made all the required changes, click the Save button to bulk update the records.

## Bulk Updating Data for a Selection of Pupils

There are two methods for selecting a number of pupils.

## Entering a Value for a Selection of Pupils

1. Highlight the first pupil you want to select, then hold down the Ctrl key and highlight the other required pupils.
2. Release the Ctrl key and then click one of the highlighted cells in the required data item column.
A tick indicates that the pupil has been assigned that value.

## Entering a Value for Sequentially Listed Pupils

This method can be used for assigning a value to a group of sequentially listed pupils. For example, clicking the Assigned column heading displays all unassigned pupil at the top of the list.

1. Highlight the first pupil in the group, hold down the Shift key and then click the last pupil in the group (alternatively, hold down the Shift key and press the Down Arrow key).
2. Release the Shift key, then click one of the highlighted cells in the required data item column.

A tick indicates that the pupil has been assigned that value.

## Recording Leavers and Re-Admissions

Ensure that all your leavers are taken off-roll and any returning pupils are re-admitted.
The accuracy of pupil numbers can be checked by running the Population Analysis (Dated) report (Reports | Run Report - Focus - Student). This is a predefined report that gives a breakdown of the number of pupils (including numbers by gender) for each registration group in each year, together with a grand total.

## Recording a Leaver

Not applicable to Nursery schools
The Date of Leaving is collected for all schools with the exception of Nursery schools.

1. Select Routines | Pupil | Leavers to display the Find Pupil(s) browser.

2. Ensure that the Status of On Roll is selected.
3. Click the Search button to display a list of all on-roll pupils.

4. Highlight the pupils you wish to record as leavers, then click the Select button. The selected pupils are displayed in the Students panel.

5. In the Leaving Information panel, enter the Date of Leaving or click the Calendar button and select the required date.
The date of leaving should be the date that the pupil is actually leaving the school, unless they are transferring from Junior/Primary phase to Secondary phase because Local Authorities normally specify the dates to be used for school transfers so that they match. If you are in any doubt, please contact your Local Authority for advice.

IMPORTANT NOTE: It is recommended that Year 11 pupils are not given a Date of Leaving until it is confirmed that they will actually be leaving the school at the end of the Summer term and are not returning to Year 12.
For pupils who stay on for Year 12, without a gap in learning from Year 11, the DfE expects their Date of Admission to be the same as it was when the pupil was in Year 11. It is also expected that no date of leaving was recorded for the end of Year 11.
6. Select the Reason for Leaving from the drop-down list, e.g. Elective Home Education, then either:

- highlight the pupils to whom this information applies (for multiple selection, use the Ctrl or Shift functionality) and then click the Assign to Selected button; or
- if the information applies to all the pupils in the list, click the Assign to All button.

7. Enter the Destination after Leaving, if known, then use the Assign to All or Assign to Selected options, as required.
8. Specify the Destination Institution, if known.
a. Click the Browse button (adjacent to the Destination Institution field) to display the School Browse dialog.
b. Search for, then select the relevant institution. Alternatively, click the New button to add a new institution.
c. Click the OK button(s) to return to the Leaving Information panel.
d. Use the Assign to All or Assign to Selected options, as required.
9. Enter the Destination Expected Start Date (or select the relevant date from the Calendar), then use the Assign to All or Assign to Selected options, as required.
10. If the pupil is a child deemed missing in education, select the Grounds for Removal from the drop-down list, e.g. E-Distance, then use the Assign to All or Assign to Selected options, as applicable.

IMPORTANT NOTE: To comply with the Children Missing in Education legislation, schools are required to record this information for all pupils on leaving the school.
11. Select the Learning Aim Withdrawal Reason from the drop-down list, e.g. Personal, (applicable to Pupil Referral Units only).

The reason for withdrawing from a Learning Aim is collected in the Autumn Return for any Learning Aim with the status of Withdrawn.
12. Click the Assign to All button or Assign to Selected button, as applicable.
13. Click the Save button.

> TIPS: To remove a pupil from the Students list, highlight their record, then click the Remove button.
> To correct details enter in error, highlight the applicable pupil, then click the Clear button. This remove the details drawn from the Leaving Information panel for the selected pupil only. Re-enter the information as required.
> The Learning Aim Reason column remains populated after clicking the Clear button. However, the data is updated automatically if a different reason is selected and assigned.

## Re-Admitting a Pupil

Any pupil who leaves the school and subsequently decides to return must be re-admitted.

NOTES: Do not remove the leaving date, as the pupil's period of absence from the school will not be recorded.
However, if a pupil is intending to leave but subsequently changes their mind and decides not to leave, the date of leaving can be removed, as continuous attendance has been maintained.

1. Select Focus | Pupil | Pupil Details to display the Find Student browser.
2. Click the New button to display the Add Student page. It is necessary to enter limited information here as you know that the person already exists.
3. Click the Continue button to display a list of Matched People, based on the criteria entered on the Add Pupil page.
4. Highlight the required pupil, then click the Open button. The following warning message is displayed:
The selected student is a leaver. Do you want to re-admit the student?
5. Click the Yes button if you are certain that this is the pupil who should be re-admitted. Their details are displayed on the Student Details page.
6. Complete the mandatory fields (Date of birth, Gender, Year Group, Enrolment Status, Year Taught In and Admission Date) and check any other details that may have changed since they were last on-roll, such as their address.
7. Check that the original UPN is displayed.

If it did not previously exist, generate a new UPN by clicking the button adjacent to the UPN field to display the Issue UPN dialog.
Select either the Issue Permanent or Issue Temporary UPN radio button, then click the OK button to return to the Registration panel.
The temporary/permanent UPN is issued on save.
8. Click the Save button to re-admit the pupil.

NOTE: If the pupil's registration status has changed from when they were previously on-roll, their enrolment status should be changed via Routines | Pupil | Change Enrolment Status.

## Completed

## Deleting Pupil Records Entered in Error

If there are pupil records that have been entered in error (such as those resulting in duplicates), ensure that the record is deleted, so that it is not included in the return. This is achieved via Routines | Pupil | Delete Pupil.
After selecting the required pupil, you can review and print their details before deciding to delete their record permanently.

WARNING: The deletion is irreversible; therefore, a pupil's record must only be deleted if they have been entered in error.

## Checking a Pupil's Basic Details

Ensure that basic details for all pupils are correct. It may be necessary to make changes for a number of reasons, e.g. to correct inaccurately entered information, legal adoption, change of legal surname, etc.
The following information is collected in the return:

- Legal Forename (mandatory information in SIMS)
- Middle Names
- Legal Surname (mandatory information in SIMS)
- Former Surname
- Preferred Surname (mandatory information in SIMS)
- Gender (mandatory information in SIMS)
- Date of Birth (mandatory information in SIMS).

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the name of the required pupil to display the Pupil Details page.

3. Check that all the details displayed in the Basic Details panel are up-to-date and accurate, paying particular attention to the data collected in the return (listed previously).
If a legal change (rather than a correction) is made to the Legal Forename, Middle Name(s) or Legal Surname, a Reason and Date of Change must be recorded. Legal name changes can be recorded via the History button.
4. If you want to prevent the selected pupil's data from being deleted by the Bulk Delete Pupil Data process, select the Protect from Bulk Data Deletion check box.
5. If any changes are made, click the Save button.

## Recording a Pupil's Change of Surname

It is a requirement of the return that a history of pupils' previous surname(s) is recorded.

1. In the Basic Details panel, edit the pupil's Legal Surname.
2. Click the Save button. The following message is displayed:

Is this a correction to the name or a legal change to the student's name? If it is a legal change, please select Yes.
3. Click the Yes button to display the Reason For Change dialog.

4. Select the applicable Reason for change from the drop-down list. This entry is optional but is recommended to maintain a complete history of name changes.
5. The Date of Change defaults to today's date but can be amended by clicking the Calendar button and selecting an alternative date, if required.
6. Click the $\mathbf{O K}$ button to return to the Basic Details panel.
7. Click the Save button.
8. To view a list of the pupil's previous names, click the History button to display the Previous Names for dialog.

9. Click the Cancel button to return to the Basic Details panel.

## Checking Registration Details

The following registration information is collected in the return and should therefore be checked and corrected, if necessary:

- Enrolment Status (mandatory information in SIMS).

The Pupil area of SIMS displays read-only enrolment status information only. A pupil's enrolment status can be changed via Routines | Pupil | Change Enrolment Status (please see Changing an Enrolment Status on page 64).

- Admission Date (mandatory information in SIMS)
- Year Taught In, i.e. National Curriculum Year Group (mandatory information in SIMS)
- Boarder Status
- UPN
- Former UPN (this is a read-only field, which is populated automatically if the UPN is changed)
- Part-Time Details.

## Checking Unique Pupil Numbers

Ensure that all pupils have a UPN recorded and that all UPNs are in the correct format. A temporary UPN is acceptable in some circumstances.

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the name of the required pupil to display the Pupil Details page.
3. Click the Registration hyperlink to display the Registration panel.

NOTE: The Early Years Attendance Patterns section of the Registration panel is visible to Primary schools only.

A unique UPN should be entered in the UPN field. If the UPN entered has an invalid format, the field turns red indicating that the UPN is incorrect and should be re-entered.

- Permanent UPNs are issued to a new pupil only when it is believed that they have never previously been allocated a UPN or to replace a temporary UPN.
- Temporary UPNs are issued to a pupil when the permanent UPN is not known to the school, e.g. awaiting transfer file/applicant's information. A temporary UPN can be recognised by the letter after the UPN number, e.g. H82020010701A.

4. If necessary, issue a new UPN by clicking the Generate UPN button adjacent to the UPN field to display the Issue UPN dialog.

G Generate UPN button

| mos Issue UPN | - | $\square$ | $\times$ |
| :---: | :---: | :---: | :---: |
| Issue Permanent UPN | $\bigcirc$ |  |  |
| Issue Temporary UPN | $\bigcirc$ |  |  |
| None | $\bigcirc$ |  |  |
|  | OK |  |  |

5. Select either the Issue Permanent UPN or Issue Temporary UPN radio button.
6. Click the OK button to return to the Registration panel.
7. Click the Save button. The UPN is generated automatically when the record is saved.

NOTE: A pupil who is adopted after being allocated a UPN is often issued with a new permanent UPN. However, the exact process might vary depending on the circumstances and the guidance issued by your LA/DfE.
For information about issuing a new UPN for an adopted child, please seek advice from your LA, if applicable.
DfE guidance is also available on the GOV.UK website (https://www.gov.uk/government/publications/unique-pupil-numbers).

## Completed

## Checking Part-Time Pupil Information

The collection of part-time details is mainly relevant to Nursery schools (or schools with nursery age children) and Primary schools with Reception years. However, any pupil can be marked as part-time if their attendance is anything less than 10 sessions per week.
For dual registered pupils, time in other schools should be considered. For example, three full days in one school and two full days in another school should not be classified by either school as part-time.

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the name of the required pupil to display the Pupil Details page.
3. Click the Registration hyperlink to display the Registration panel.

NOTE: The Early Years Attendance Patterns section of the Registration panel is visible to Primary schools only. If applicable, Primary schools should complete the Early Years Attendance Patterns, as this will help when updating Hours at Setting.
4. Check the details in the Part Time Details section. A minimum of a Start Date must be displayed for each record.
5. Part-time details can be added by clicking the New button to display the Add Part-time Attendance dialog.

| sus Add Part-time Attendance | - | $\square$ | $\times$ |
| :--- | :--- | :--- | :--- |
| Start Date | $08 / 01 / 2021$ |  |  |
| End Date | $02 / 09 / 2021$ |  |  |
|  |  |  |  |
|  |  | OK |  |
|  |  | Cancel |  |

6. Enter a minimum of the Start Date, then click the OK button to return to the Registration panel.
7. Click the Save button to save any changes.

IMPORTANT NOTE: It is equally important to edit the details of any pupils who are no longer part-time. This is achieved by highlighting the pupil's Part Time Details record, then clicking the Open button to display the Add Part-time Attendance dialog. Enter the correct End Date, then click the $\mathbf{O K}$ button to return to the Registration panel.

## Checking National Curriculum Year Groups

The National Curriculum Year Group (Year Taught In) is the year group in which the pupil is taught for the majority of the time, regardless of their chronological age. In most cases, this will be the same as the Year Group. However, some children are taught in the year above or below the expected year (based on their age), perhaps because they are academically advanced or behind. It is very important that the correct Year Taught In has been recorded in SIMS.

For the School Census Summer 2021 Return, the collection data uses the Age at Date as at 31/08/2020.
The following table shows the Curriculum Year that pupils in England are expected to be taught in (Year Taught In), according to their date of birth (during the academic year 2020/2021). This table is provided for reference only.

| Year Taught In | Date of Birth Range | Age Range |
| :---: | :---: | :---: |
|  | After 31/08/2018 | 1 and under |
| N1 | 01/09/2017 to 31/08/2018 | 2-3 |

## Checking Home Address Information

A pupil's current home address is required for the return. Where a pupil has multiple current addresses, details of all addresses should be recorded.
All aspects of the address are collected and therefore all address details should be recorded to avoid validation errors. It is particularly important to check that a House Name or House Number and a Post Code are entered in the correct fields.
Post codes must be entered in the correct format. A validation error is generated if a post code has not been entered (although it is understood that in some instances, such as Traveller children, a post code is not available).

The Unique Property Reference Number (UPRN) is a unique identifier that links together related address records across different software programmes. This enables organisations to collate and share information based on a common reference number.

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the name of the required pupil to display the Pupil Details page.
3. In the Addresses panel, check that the Post Code and House Number/Name exist and that they are valid.
These details can be checked by clicking the Address button to launch the selected mapping website (specified via Tools | Setups | User Options), where a map of the area surrounding the address is displayed.

NOTE: British Forces Post Office numbers can be added as post codes.
4. If the Unique Property Reference Number (UPRN) is not displayed below the Current Home Address Details:
a. Click the Validate button to display the Find Matching Addresses dialog.
b. Highlight the required address, then click the OK button to return to the Addresses panel, where the UPRN is displayed below the address.
5. If you have edited the address, click the Save button.
6. If the pupil has an additional current address, i.e. a Second Home, enter the additional address and then click the Continue button (adjacent to the address) to display the New Address Details panel.
7. Enter the remaining address details and the Address Type, then click the Save button to refresh the display.

NOTE: Any contacts (parents, applicants, staff, etc) who share the same address as the pupil are displayed in the Linked People dialog, which can be accessed via the Modify Address button.

## Checking Free School Meals Eligibility

Only pupils who have been approved by the LA to receive a free school meal should be recorded in SIMS as being eligible. It is advisable to check that all eligible pupils are recorded.

```
NOTE for schools with Reception, Year 1 and Year 2:
```

All pupils in Reception, Year 1 and Year 2 are offered a meal regardless of whether they are eligible for free school meals.
Pupils in Reception, Year 1 and Year 2 must only be recorded as eligible for a free school meal if they meet the criteria for free school meals.

Free school meal guidance for schools and Local Authorities is available from the GOV.UK website
(https://www.gov.uk/government/publications/free-school-meals-guidance-for-schools-and-local-authorities).
The following free school meal eligibility related data is collected in for the return:

- Start Date
- End Date (if known)

The DfE does not expect free school meal (FSM) end dates to be entered by schools during the transitional period to universal credit except where there are exceptions.

- UK Country in which the eligibility applies.

Meal Patterns are not required for the return but can be recorded for information purposes only. It is perfectly acceptable, for example, for a pupil to be eligible for free school meals, but to bring sandwiches (PL (packed lunch)) or to go home (HO (home)).

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the required pupil to display the Pupil Details page.
3. In the Dietary panel, ensure the minimum of a Start Date and Country are displayed in the Eligible for Free Meals panel. If you need to edit the data, highlight the required record and then click the Open button.

If a new record is required, click the adjacent New button to display the Add Student Free Meals Details dialog.

4. Enter the Start Date (and End Date if available) for the free meal period, as supplied by your Local Authority.
5. Ensure that the UK Country in which the eligibility applies is correct. Select from the drop-down list, if required.
6. Enter Notes, if required.
7. Click the OK button to return to the Dietary panel, where the new information is displayed.
8. Click the Save button.

Ensure that this information is checked/amended on a regular basis.

## Completed

## Checking Ethnic and Cultural Information

The following ethnic and cultural information is collected in the return:

## First Language

- A First Language other than English should be recorded where a pupil was exposed to the language during early development and continues to be exposed to this language at home or in the community.
- If the child was exposed to more than one language (which may include English) during early development, the language other than English should be recorded, irrespective of the pupil's proficiency in English.

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the required pupil to display the Pupil Details page.
3. Navigate to the Ethnic/Cultural panel.

| Nationality and Passport | Nationalit |  | cenart Number | Evainu data | New |

4. Select the pupil's First Language from the drop-down list.
5. Click the Save button.

## TIPS:

It is possible to bulk update Ethnicity and First Language for a selected group of pupils by selecting the relevant option from the Data Item drop-down list via Routines | Pupil | Bulk Update.
Home language is no longer collected in the School Census. Users with School Administrator permissions can remove the Home Language field from the Student Details and Application pages, if required. This is achieved by selecting the Hide Home Language check box in the School Options panel via Tools | Setups | School Options.
Home language is always included in CTF imports, CTF exports and the Reporting Dictionary, even if it is not displayed on the Student Details and Application pages.

## Checking Additional Information

Ensure that Service Children in Education information is recorded in SIMS.

The Bulk Update routine can be used to assign and edit these values for a specific selection of pupils at the same time, if required (please see Updating Information Using the Bulk Update Routine on page 24).

1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
2. Search for, then double-click the required pupil to display the Pupil Details page.
3. Navigate to the Additional Information panel.

NOTE: The meal information is now entered via the Dietary panel.
4. If the pupil is the child of a parent(s) in the armed forces, ensure that the correct value is selected from the Service Children in Education drop-down list.
5. Select how the school was notified about the Service Children in Education information by selecting from the Source of Service Children in Education drop-down list.
6. Ensure that any Service Children Concerns are recorded. Click the adjacent New or Open button, as required.
7. Ensure that the Pupil Premium Indicator for year 2020/2021 check box is selected, if applicable. To enter a note related to the applicable year, click the Search button adjacent to the Notes field.
Although Pupil Premium information is not collected in the return, it is important for schools that are in receipt of this funding, which is allocated to children from low-income families, to be able to give a full account of its use. The national school performance tables now include information about the progress of pupils in receipt of Pupil Premium and information is required to be sent to parents about how it has been used and what impact it has had on pupil progress.

## Checking Special Educational Needs Information

The following Special Educational Needs (SEN) items are collected in the return:

- SEN Status (SEN Provision)
- E - Education, Health and Care Plan (EHCP) - the LA has reviewed the pupil and a plan has been issued.

- K - SEN Support - actions have been put in place or will be put in place to support the pupil with their need, once a SEN need or potential SEN need has been identified.
- Provision Type (not applicable to Pupil Referral Units or Special schools)
- Time in SEN Unit - member of SEN Unit
- Resourced Provision

1. Select Focus | Pupil | Special Educational Needs to display the Find SEN Student browser.

```
NOTE: At least one Special Educational Need, e.g. Visual Impairment, must be recorded for all pupils with a SEN Status of E-Education, Health and Care Plan (EHCP) and K - SEN Support.
```

To view changes that have taken place to the pupil's SEN Status, click the Status History button to display the Status History page.
6. In the Provisions panel, ensure that records with a Provision Type of Time in Unit or Resourced Provision are recorded correctly.

## Preparing Termly Attendance Information

## Not applicable to Nursery schools

Termly attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder pupils and leavers aged four to 15 inclusive on 31/08/2020, who were on-roll for at least one session during the collection period from the 01/01/2021 to 04/04/2021.
The attendance data collected in this return includes:

- Number of pupils on roll for at least one session in the 2021 Spring term
- Number of pupils with at least one absence in the 2021 Spring term
- Percentage of pupils with at least one absence in the 2021 Spring term

- Number of pupils whose overall absence rate is greater than or equal to 10 per cent and are therefore identified as a persistent absentee in this term
- Percentage of pupils whose overall absence rate is greater than or equal to 10 per cent and are therefore identified as a persistent absentee in this term.

If you use SIMS Attendance, attendance data is entered in the return automatically, provided there are no missing marks.

IMPORTANT NOTE: If you use SIMS Attendance, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the School Census Return.

If you do not use SIMS Attendance and you do not use a software package that writes back to the SIMS database, or if you have not converted to the code of practice for attendance codes, you need to calculate and enter the following information manually on the Census Details page (via Routines | Statutory Returns | School Census):

- Possible Sessions
- Sessions Missed due to Authorised Absence
- Sessions Missed due to Unauthorised Absence
- Total sessions attending approved educational activity
- Total sessions unable to attend due to exceptional circumstances
- Total number of sessions unable to attend due to Coronavirus.

For information and advice about school attendance, please refer to the DfE website

## Recording Universal Infant School Meals

Applicable to schools with pupils in Reception, Year 1 and Year 2

#### Abstract

NOTE for Special schools: The School Dinner Taken routine is applicable to Special schools that have on-roll pupils who have taken a school dinner on census day and who are in Year Taught In Reception, Year 1 or Year 2 and those in Year Taught In $X$ aged four to six who were born between 01/09/2013 and 31/08/2016 inclusive.

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the Local Authority. The School Census collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.
School dinners taken on the Reference Date (by default, census day) can be calculated from the information stored in Dinner Money. Dinner Money users should therefore ensure that school dinners taken are recorded correctly via Focus | Attendance | Take Register or Focus | Dinner Money | Record Pupil Meals.

- If default meal patterns have been entered (via Focus | Dinner Money | Pupil Default Meal Patterns), the Dinner Register is populated automatically with the default meals.
For more information about setting up default meal patterns, please refer to the Setting up and Maintaining Dinner Money handbook.
- Where any 'pupil not present' attendance marks have been entered, the Dinner Register is populated automatically with an absent mark.
- Any special meals entered in advance are displayed and are not overwritten by the default meal pattern.
The attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner. Therefore, when completing the School Census School Dinner Taken panel, the calculated numbers must be edited to reflect hot meals provided by the school only. Ensure that the pupils listed on the Reception, Year 1 and Year 2 attendance registers are accurate and that the registers are taken on census day morning (before completing the School Census School Dinner Taken panel).

## Updating Class Types

Applicable to Primary schools only
Before starting the return, it is necessary to indicate which class a pupil is a member of - either Nursery (if the child is currently in a LA designated Nursery Unit) or Other (any other class). This is only needed for newly added pupils where they have transferred from a LA designated Nursery Unit into an 'Other' class.

NOTE: If new pupils exist, the default class type is displayed as blank.

1. Select Tools | Statutory Return Tools | Update Class Type to display the Update Class Type page.
The values displayed on the Update Class Type page default to those of the previous return. Existing details should be checked and edited, if necessary, and the details of any new pupils added.

2. To specify the class type for an individual pupil, click in the applicable cell of the Nursery or Other column to enter a tick. Clicking the cell again removes the tick.
3. If all or the majority of pupils need to be assigned the same class type, the following method can be used to quickly populate the Nursery and Other columns:
a. Right-click the Other column header, then select Check All.

| Pupils |  |  |  |  |  |  |  |  |

- 30 Hour Code
- Extended Funded Hours.

NOTE: Disability Access Fund, 30 Hour Code and Extended Funded Hours are not collected in the census for pupils aged two at 31/03/2021.

## Funded Hours and Hours at Setting

Funded universal free entitlement hours are the total number of free childcare hours that a child receives. All three and four year old pupils are eligible for 15 hours funded child care a week. Advice about the eligibility of two year old children for funded childcare can be found on the DfE website (https://www.gov.uk/help-with-childcare-costs/free-childcare-2-year-olds).
Hours at Setting include funded free entitlement hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

## Disability Access Fund

The Disability Access Fund (DAF) is payable as a lump sum once a year and awarded to three and four year old pupils who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA) and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupils who are in receipt of the fund on census day.

| Date of Birth Ranges | School Type and National Curriculum Year Group |

| 01/09/2016 to <br> $31 / 03 / 2018$ <br> inclusive | All relevant schools and year groups. |

Additional information about the Disability Access Fund is available via the DfE website (https://www.gov.uk/education/early-years-funding).

## Extended Funded Hours and $\mathbf{3 0}$ Hour Code

Extended Funded Hours are the number of hours that a child can receive in addition to the initial 15 funded hours. Extended Funded Hours are applicable to three and four year old pupils only.
Extended Funded Hours can double the original 15 hours of free childcare to 30 hours a week, i.e. 15 funded free entitlement hours +15 extended entitlement hours $=30$ hours, provided that the following criteria are met:

- Both parents must be working (or the sole parent is working in a lone parent family) and live in England.
- Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.
- Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a unique code from the Tax Office (HM Revenue \& Customs), then provide it to the school, together with other details, to confirm their eligibility for extended childcare hours.

The 11 digit 30 Hour Code and the number of extended funded hours are collected in this return for the week in which the census day falls.

## Updating Early Years Information

Early Years data is collected from all schools that have early years pupils on-roll on census day.
Data for the following items can be recorded before completing the return (via Tools | Statutory Return Tools | Update Early Years):

- Funded Hours - Funded hours are the total number of free child care hours that a child receives.
- Hours at Setting - Hours at setting include funded hours plus any additional hours funded by other means.
- Disability Access Fund - The disability access fund is payable as a lump sum once a year and awarded to pupils who meet the required criteria.
- $\mathbf{3 0}$ Hour Code - The 11 digit 30 hour code must be obtained from the Tax Office (HM Revenue \& Customs) by parents who meet the extended funded hours criteria.
- Extended Funded Hours - Extended funded hours are the number of hours that are in addition to the initial 15 funded hours that a child can receive.
The early years data is collected for the week in which the census day falls with the exception of disability access fund, which is collected for pupils who are in receipt of the fund on census day.

NOTE: Disability Access Fund, 30 Hour Code and Extended Funded Hours are not collected in the census for pupils aged two at 31/03/2021.

1. Select Tools | Statutory Return Tools | Update Early Years to display the Update Early Years page. Only cohorts applicable to your school are displayed.
Where available, the hours data is brought forward from the previous Census.

The Update Hours button is available to Primary schools only. It enables Hours at Setting, for pupils who are receiving free nursery care, to be updated automatically (provided that Early Years Attendance Patterns have been defined via Focus | Pupil | Pupil Details).
2. Click the Update Hours button to display the number of hours that the listed pupils are expected to attend during the census week (based on the early years provision times recorded as part of their attendance pattern).

NOTE: If your school does not use the Define Early Years Attendance Patterns functionality, the data can be entered in the grid manually.
3. To add or edit the number of Hours at Setting, Funded Hours or Extended Funded Hours for an individual pupil, select the required criteria from the options in the Pupils View panel. Highlight the required pupil record in the Pupils panel, click the applicable cell and then enter the required number of hours.

IMPORTANT NOTES: Values for Funded Hours, Hours at Setting and Extended Funded Hours should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.
If the value entered is within the accepted range but higher than expected by the DfE, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.
4. If most of the pupils are receiving the same number of hours, the following method can be used to quickly populate the column:
a. In the Pupils View panel, select the required year group from the YTI (Year Taught In) drop-down list. Only the selected pupils are displayed in the Pupils panel.
b. Right-click in the Pupils panel, then select Select All from the drop-down list.
c. Click in one of the highlighted cells of the column you wish to populate, i.e. Hours at Setting, Funded Hours or Extended Funded Hours, then enter the number of hours that is applicable to the majority of pupils.
This number is then entered automatically for the remaining pupils.
d. Click to the right of the grid to deselect all.
e. Edit the entry for each pupil who is receiving a different number of hours. This is achieved by highlighting the required pupil, clicking in the associated Hours at Setting, Funded Hours or Extended Funded Hours cell, as applicable and then entering the required number.
5. Indicate whether the pupils are in receipt of the Disability Access Fund. Click the applicable cell, then select Yes or No from the drop-down list.
6. Enter the 11 digit 30 Hour Code in the applicable cell, if in receipt of extended funded hours.
7. Click the Save button.

The Early Years report is available from the Detail Report drop-down list via Routines | Statutory Returns | School Census.

## Completed

## Using the Status to determine if Hours at Setting or Funded Hours are recorded

1. In the Pupils View panel, ensure that the required Age at date, YTI and Reg group are selected and then select No Hours at Setting (or No Funded Hours) from the Status drop-down list.
Only pupils who do not have an entry for Hours at Setting (or Funded Hours) are displayed.
2. Enter the required values for these pupils as described previously.
3. Click the Save button.

## Updating Pupils with Top-Up Funding

Top-up funding is supplied to schools, in most cases by the Local Authority, to meet the additional costs of support for high needs pupils.

1. Select Tools | Statutory Return Tools | Update Top-Up Funding to display the Update Pupils with Top-up Funding page.
Any pupils currently recorded as having top-up funding are displayed in the Top-up Funding list (located in the bottom half of the page).

2. Use the Students On-Roll on Census Day search criteria to locate the additional pupils you wish to record as having top-up funding, then highlight their details.

3. Click the Add button to move the highlighted pupil(s) to the Top-up Funding list.

4. To remove a pupil from the Top-up Funding list, highlight the required pupil and then click the Remove button. The pupil's record is moved to the Students On-Roll on Census Day list, from where it can be reselected, if required.
5. Click the Update button to save the data and arrange the list of pupils in Surname order.

## Updating Pupils Post Looked After Arrangements

Post Looked After Arrangements (previously named Adopted from Care) is collected for pupils who are on-roll on census day and the information is then used for funding purposes.
The values available for selection enable schools to indicate which pupils were looked after immediately before adoption or prior to being the subject of a residence or special guardianship order. However, those who have parental responsibility are not obliged to provide this information to the school.

1. Select Tools | Statutory Return Tools | Update Post Looked After Arrangements to display the Update Students Post Looked After Arrangements page.
Any pupils currently recorded as having post looked after arrangements are displayed in the Post Looked After Arrangements list (located in the bottom half of the page).

2. Use the Students On-Roll on Census Day search criteria to locate the pupils you want to record as having PLAA.

3. Highlight the required pupils, then click the Add button to move the selected pupils to the Post Looked After Arrangements list.

4. Ensure that the correct post looked after arrangement is displayed for each pupil by clicking the applicable PLAA cell, then selecting the applicable status from the drop-down list:

- Ceased to be looked after through Adoption
- Ceased to be looked after through a Special Guardianship Order (SGO)
- Ceased to be looked after through a Residence Order (RO)
- Ceased to be looked after through a Child Arrangement Order (CAO).

5. Select the Evidence Obtained check box, if documents have been obtained that provide evidence of the post looked after arrangements.

NOTE: Evidence Obtained is not collected in the School Census return but should be recorded as prove of DfE/Ofsted compliance.
6. To remove a pupil from the Post Looked After Arrangements list, highlight the required pupil and then click the Remove button. The pupil's record is automatically moved to the Students On-Roll on Census Day list, from where it can be reselected, if required.
7. Click the Update button to save the information and arrange the names in surname order.
If you have indicated that evidence has been obtained, you are reminded to ensure that the necessary documents are stored securely outside of SIMS or within the Document Management Server (DMS).

## Changing an Enrolment Status

A pupil Enrolment Status defaults to Single Registration but can be changed via the Routines menu, if required.
The following enrolment statuses are available:

- Single Registration - this status represents a normal, full-time pupil who is only registered as on-roll at your school.
- Guest Pupil - this status represents a pupil who is on-roll at another school but attends your school for certain lessons. There is no need to register them as on-roll at your school.
- Main-Dual Registration - this status indicates that the pupil is registered at another school for some of their timetable, but the majority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.
- Subsidiary-Dual Registration - this status indicates that the pupil is registered at another school for the majority of their timetable and only a minority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.
- FE College (applicable to Pupil Referral Units in England only) - this status indicates that the pupil is registered at a Further Education College and only a minority of their time is spent at your school.
- Other Provider (applicable to Pupil Referral Units in England only) this status indicates that the pupil is registered at another provider and only a minority of their time is spent at your school.

NOTE: SIMS uses the information in the enrolment status change log to determine enrolment on census day.

1. Select Routines | Pupil | Change Enrolment Status to display the Find Pupil browser.
2. Search for, then double-click the name of the required pupil to display the Change Enrolment Status page.

NOTE: The pupil's basic details are displayed for information only. Edits to basic details can be made via Focus | Pupil | Basic Details.
3. In the Registration panel, select the applicable Enrolment Status from the drop-down list.

If the pupil's enrolment status has been changed before, a history of the Enrolment Status History can be viewed by clicking the adjacent Search button.
4. The Student Date of Change defaults to today's date but can be edited by selecting the required date from the adjacent Calendar. This date is for information only and does not impact any other part of SIMS.
5. Enter any associated Notes.
6. Click the Save button. A confirmation message is displayed.

WARNING: The details of the confirmation message is different depending on the change of enrolment status. For example:
" If the enrolment status is changed to Guest pupil, all previously recorded session attendance marks are deleted.

- If the enrolment status change has taken place during the academic year, the applicable attendance marks might need to be corrected.
In some circumstances a new admission number is allocated to the pupil if you confirm the enrolment status change.

7. Click the Yes button if you want to continue.

After carrying out the preparation routines documented in this guide, ensure that any subsequent changes at your school (e.g. pupil basic detail changes, SEN provision changes, leavers and admissions/re-admissions, etc.) are recorded accurately in SIMS.
The SIMS 2021 Spring Release (7.198) must be installed before completing the School Census Summer 2021 Return. However, it is advisable to check whether a later version of SIMS is available and then upgrade to the current release, if necessary, as it may include updates applicable to the forthcoming return.
You should now be ready to produce the final School Census Summer 2021 Return.
